OUR PROCESS

01

INITIAL CHAT & BESPOKE QUOTATION

Talking details. Starting with initial conversation to find out your wedding stationery requirements, whether you are option for a full bespoke invitation suite, a signage bundle or vow books - we will talk to you briefly around what you would require including colour pallets, card stock types, types of print, finishes, your quantities need & create bespoke investment quotation for you. Don't worry if you are busy, we can have our chat over email or DM!

02

CONSULTATION, MOOD BOARDS & DESIGN CONCEPT

The finer elements. Consultations take over the phone or email, in which we can delve into creating your perfect suite. We will go into detail about design builds & any extra finishes you opt to add. From the consultation, we will create a bespoke mood board around your design concept with your proposed graphic along with typography styles & a colour palette chart.

03

ARTWORK CREATION & ONLINE APPROVAL

Let's be creative. We take all of your details by our online booking form. Your wedding artistry will be developed in online artwork pieces around your approved mood board and design concept. The designs will be sent to you via our online approval system, direct to your email. In love with your design? We then ask for your approval to confirm your stationery is ready to be sent to print.

04

ARTWORK CREATION & ONLINE APPROVAL

Bringing your ideas to life. We will be working hard behind the scenes while we send your artwork to print, checking colour codes, cut marks & making sure your prints will be perfect. The printing process takes roughly 10 working days. Once printed, we can add any extra special touches e.g gold leaf, deckled edges, tassels, wax seals, dried florals & much more.
